

Quality Policy of PLASTECNIC ACCESORIOS V.I., S.A.

Plastecnic manufactures, under own design and patent, accessories for industrial vehicles.

Our products are:

On-Board Weighing System for vehicles with pneumatic suspension.
Aluminium landing legs for semitrailers.
Autolubricating plates for the fifth wheel.

Our products are mainly focused to:

Semitrailer manufacturers, industrial vehicle spare parts shops, industrial automotive dealerships, electrical and mechanical repair industrial vehicle shops, transport cooperative, fleets and transporters.

Since 1997 Plastecnic offers to the customers a high quality product, excellent delivery terms, and quick and accurate answers to their needs.

All Plastecnic products are completely manufactured in our factory which permits us to solve quickly and efficiently any type on incidence or guarantee.

Our continuous improvement of the production process and the research and development of new products, have made Plastecnic to be considered a company with a projection to the future.
